

A Survey for Sunday Worship

What is your favorite part of worship?

A typical reformed service (even contemporary) includes a time for GATHERING (preparing to hear the word), WORD (listening for the Word of God), RESPONSE (how we are going to serve or commit to God which include the Lord's Supper, offering, baptisms, commissioning, etc.) and SENDING.

Which part of the service, if any, is the most important for you spiritually? Why?

If you would add anything to the service, what would you add?

If you would remove anything from the service, what would you remove?

Music is integral to worship and woven throughout the service to set mood and help connect people to the Word of God.

What type of music is the most important for you spiritually? Why?

Do you find any of the music choices difficult to connect with? Why?

Would you like to see the order or number of songs changed? How?

Currently we do contemporary music twice a month but follow the same order as other Sundays.

Do you feel that this is a good balance between contemporary music and traditional? Yes No

Why?

Currently we follow the lectionary to pick our Scriptures. However, they often offer up many themes. We are thinking of following month long or seasonal themes that will extend beyond worship.

What themes would you like to see in worship?

Currently we have a few special "take-over" like youth Sunday, the Revive takeover, and Music Sunday (the Christmas Cantata).

Would you like to see more of these services? If so what would they be like?

A few years ago we switched to a very minimal bulletin with a nice cover which reduced the cost of the bulletin from roughly \$300 per week to around \$100 for labor and materials.

Do you feel we need a bulletin? Yes No

Would you use a digital bulletin instead of a paper one if it were available? Yes No

What are your other thoughts on the bulletins?

What other thoughts do you have that would make worship a more spiritual experience for you?
